

TEAM NAME : CARE CONNECT

COLLEGE NAME : SVCE

PROBLEM STATEMENT : ELDERLY CARE SOLUTIONS

PROBLEM STATEMENT

Elderly Loneliness

Elders often live alone, feeling **lonely** and **lacking** emotional support.

Medication Neglect

Elders often forget to take their medicines on time.

Emergency Risks

Falls or **sudden health issues** may occur when elders are alone.

Limited Health Monitoring

Family members cannot **continuously** monitor elders' health.

Lack of Daily Routine Management

Elders struggle to **manage** tasks, appointments, and routines.

Insufficient Emotional Support

Healthcare solutions neglect elders' emotional needs.

SOLUTION

AI Companion Chatbot : Provides friendly conversation with the elder, tells jokes , and suggests activities to reduce loneliness and boredom

Emotion & Mood Monitoring (Face Recognition) : Uses facial emotion recognition to detect emotions such as happy, sad, or neutral to monitor the elder's emotional wellbeing and gives recommendations through voice assist chatbot

Medicine Reminder System: Sends timely reminders for medicines and notifies caretakers or family members if a dose is missed and gives reminder to caretaker if the medicine is going to complete

Smartwatch Health Monitoring : Tracks important health data such as heart rate (BPM), sleep patterns, step count, and daily activity levels.

Fall Detection with BPM Monitoring: Uses smartwatch sensors like accelerometer and gyroscope to detect falls and verifies the situation using heart rate and body movement.

SOS Emergency Button: Allows elders to quickly send emergency alerts to caretakers and family members when immediate help is needed and sends location to caretaker.

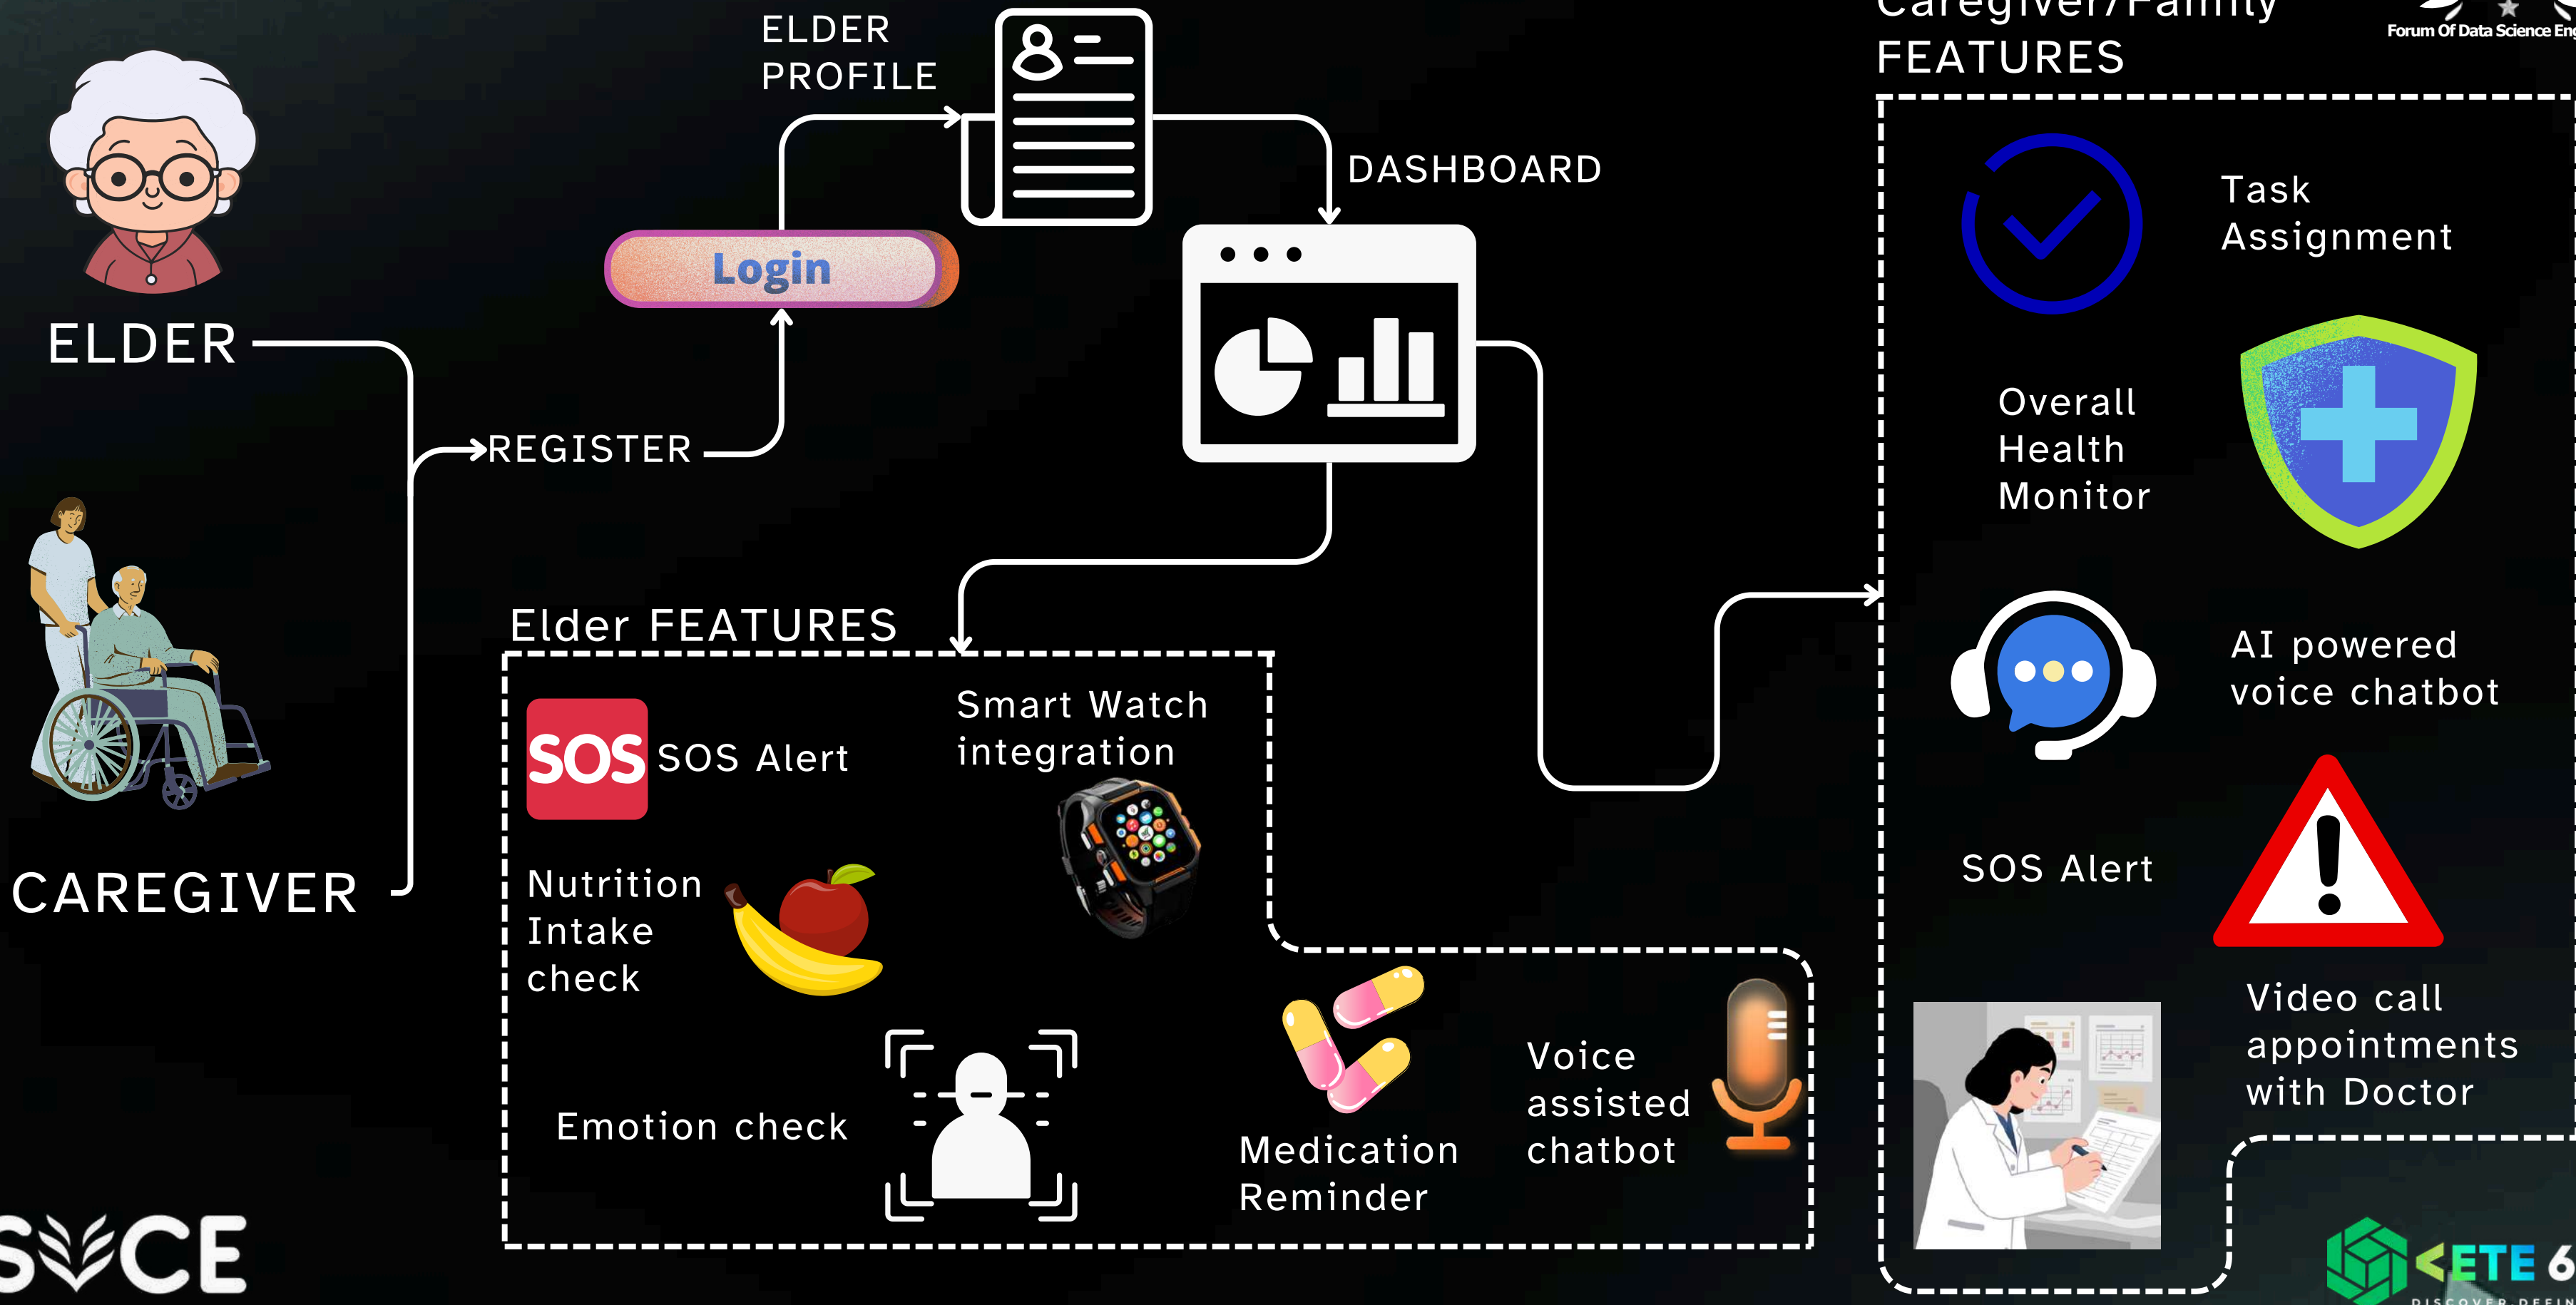

AI Activity & Nutrition Guidance : Suggests simple exercises, music, games, hydration reminders, and healthy diet recommendations to keep elders active and healthy.

Multi-Dashboard System & Fingerprint Authentication : Provides separate dashboards for elders, caretakers, and family members to monitor health data securely with easy fingerprint login
